

Summary of the ILCSC Meeting
12 January 2007
Cockcroft Institute, Daresbury, UK

1. RDR and Cost Estimate

There was a discussion of the 10-12 January 2007 MAC meeting, which had reviewed the preliminary ILC RDR with its cost estimate. Although MAC raised some detailed questions about the RDR, it approved of the overall cost methodology. The WWS commented on the proposal for two detectors in a push-pull arrangement with a common beam delivery system.

2. RDR and Cost Estimate Announcement

Plans were discussed for a press conference on 8 February 2007 in Beijing during the ICFA and ILCSC meetings there.

3. International Cost Review

FALC (Funding Agencies for Large Colliders) has asked ILCSC to organize an international cost review of the RDR, to take place in the first half of 2007.
